

[IBEW members script for members of Congress]

Hello. I am a constituent and a member of the International Brotherhood of Electrical Workers Local _____. I am calling to ask Representative _____ to call for an immediate vote on the bipartisan Infrastructure Investment and Jobs Act, or BIF.

It's long past time for a vote in the House of Representatives on this top priority for IBEW. I support all of President Biden's Build Back Better Agenda, and there is no reason to hold up passage of the BIF while details are worked out on reconciliation. Working families have already waited too long for good jobs that will be created through infrastructure investment. The Senate passed the BIF more than two months ago.

I ask Rep. _____ to urge House leadership to put the bill on the floor without further delay and that he/she vote yes on the infrastructure bill. President Biden campaigned on rebuilding America's infrastructure, and so did you! And the American people voted for it in record numbers.

We cannot Build Back Better without this vote on infrastructure. We need to close this deal now.

Thank you.
